AGSA

AGSA Service Line

- **Regularity Audit**
- **Investigations**
- **Special Audits**
- **Performance Audits**
- **Pre-Issuance Reviews**

Auditor General (SA) service line provides assurance and advisory services in various industries within the public sector.

The primary role of the service line is to assist the Auditor General of South Africa with its constitutional mandate of being a supreme audit institution which exists to strengthen the country's democracy by enabling oversight, accountability, and governance in the public sector through auditing and building public confidence.

The AGSA annually produces audit reports on all government department, public entities, municipalities, and public institutions.

Rakoma & Associates Inc. is contracted by the AGSA to perform audits on its behalf in line with the Public Audit Act requirements.

We also perform quality reviews on audits performed by the AGSA or other contracted firms through pre-issuance engagements.

Our members are qualified Chartered Accountants and have successfully led several engagements in the private sector and on behalf of the AGSA.

Financial Services Division

Financial institutions like banks, insurance companies, and investment businesses' financial records and systems are reviewed and examined independently as part of financial services auditing. Assuring adherence to rules and laws, as well as assessing and enhancing the efficiency of internal controls and risk management procedures, are the primary goals of financial services auditing.

Our audit services can include a range of disciplines, including operational, compliance, internal, and financial statement audits. Our services are designed to assist companies and organizations in identifying possible risk areas, enhancing internal controls, and ensuring regulatory compliance. Rakoma's Financial Services can be tailored to each client's unique requirements and offer insightful analysis and suggestions for enhancing financial performance.

- Our auditing process includes several important elements, such as planning, risk assessment, testing, and reporting. We will gather information, assess financial transactions, and as needed, offer suggestions for improvement throughout the process.
- The Rakoma Financial Services Division provides a broad range of assurance and other associated services to banks, insurance companies, pension funds, and other financial organizations. Financial statements prepared in line with internationally recognized accounting standards are becoming an ever-more-important component of any information package as local financial institutions and enterprises are increasingly present on global financial markets. Financial institutions can use our services as a useful tool to preserve their financial stability, reduce risks, and improve their reputation. We can make sure that they are operating in accordance with laws and industry standards by investing in routine audits, and we can also give our clients the assurance that their financial data is reliable and correct.
- Rakoma and Associates Inc. together with other global auditing firms have worked together and are business advisors and auditors to some of the largest companies

in the region, including some of the major banks. We strive to provide quality services and respond to the complex business issues companies face in the marketplace. Our devotion and vision to our clients have made Rakoma's ongoing national presence possible.

We offer the following Financial Services:

- Audit in accordance with internationally recognised standards of auditing (ISA, USGAAS, etc.)
- Audit in accordance with statutory audit requirements
- Review of Internal Control systems
- Review of accounting systems and accounting processes
- IFRS Training
- General accounting advice
- Internal Audit Services

Head of Division
Edgar Rakoma CA (SA), RA
Executive Director

FSD Service Line

We offer the following Financial Services:

- Full scope statutory audits as required by the Pension Funds Act.
- Agreed Upon Procedures as required in terms of Section 15 of the Pension Funds Act.
- Schedule IB Assets Audits of the funds held in compliance with Regulation 28.
- Prescribed procedures required by the Reserve Bank.
- Assist management in seeing to governance, regulatory compliance, and stakeholder interests, contact focus on a cost-effective, risk-based audit approach.
- Security and risk management, including operational, strategic, reputation, credit, compliance, and IT and cyber risk.
- Liquidity and monetary flow
- Company financials and regulatory reports
- Evaluate how effectively a financial institution operates in accordance with internal controls, legal requirements, and industry best practices.
- Evaluate whether there is any evidence of law violations, money laundering, fraud, and any other anomalies.

Above all else, the main goal of our audits are to make sure a financial institution is operating in line and above board with all industry and local regulations.

Pension and retirement fund audits:

The retirement and pension funds industry are impacted by regulatory changes. These changes include improved financial reporting standards and actuarial principles, as well as a greater emphasis on governance, risk management, and compliance requirements.

We have extensive experience in providing services to both retirement funds and administrators. We have a considerable skills base in South Africa and in-depth knowledge of the functions and operations of the industry.

Governance, Risk & Compliance

Rakoma & Associates' Governance Risk and Compliance division continues to support organisations in both the public and private sectors through internal control reviews and subsequent remediation efforts to improve their control environments.

Our services include the following:

GRC Services

Risk Management Services

- Facilitation of Risk Assessment workshops
- Development of Risk Registers
- Risk Management Training provider (SETA Certified)
- Review of risk management tools
- Risk Framework development and review
- Maturity Assessments

- Outsourced
- Co-sourced
- In-house Secondments

Governance and Compliance Services

- Independent evaluation of directors and board committees
- Charter and policy reviews
- Development and implementation of combined assurance frameworks
- Induction and training of board members
- Assurance of board member appointment processes.

Head of Division

Onias Badze CA (SA), RA
Partner

Our methodology was developed based on the Rakoma Integrated Internal Audit Approach (RIIAA). Our RIIAA was developed based on the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing, and ITAF: Information Technology Assurance framework (these guides on IT audit engagements), along with other best practices standards.

The firm has established quality assurance policies, procedures and quality improvement plan (QAIP) in compliance with the International Standards on internal audit engagements. This includes Annual Internal Assessments and External Assessment every 5 years. We have been granted a general conformance in our latest (October 2019) quality review, done on behalf of the IIA. This is the highest conformance level an organisation can achieve.

Governance, risk, and compliance remains a backbone for organisational success. The lack of sound governance, risk and compliance management remains the root cause of most corporate failures in both Private and public sectors which could negative impact on the possibility of attaining clean audits. The development of effective internal controls over governance, risk and compliance has been found in:

- Proper planning by the entity's internal audit which hinges on a comprehensive audit universe.
- Full implementation of combined assurance with proper oversight by the Audit Committees; and
- Greater use of technological tools to ensure efficiency of documentation, testing and actual functioning of the internal controls.

"Internal auditing is an independent, objective assurance and consulting activity designed to add value and improve an organisation's operations. It helps an organisation accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes." Our aim is to assist your organisation in achieving its objectives.

Edzisani Adolf Phalanndwa
FIIASA, PCIA, CIA, CISA, CRMA, PIA
Director

Coldens Mamakwa
FIIASA, CIA, CFE
Associate Director

Technology Risk Services (TRS) is a service line within Rakoma and Associates that provides IT assurance, advisory and consulting services in various industries within both private and public sectors.

The primary role in terms of assurance service is to assist the audit function in proactively identifying and evaluating IT related risks and controls. TRS provide independent assurance on the confidentiality, integrity and availability of information / data processed on the various IT systems.

Technology risk refers to any risk of financial loss, disruption or damage to the reputation of an organisation as a result of the failure of its information technology systems. Cyber risk is a subset of technology risk, which is the potential for any type of technology failure to disrupt a business.
